

Buttons, tabs, and title bar color | Bar layouts

The highlight color sets the color of the title bar, buttons, and the ruling line above the footer on the registration page. The highlight color is also used for the primary and sidebar tabs in the event window.

Note: The text color is automatically set to white or black, to contrast with the highlight color. If you select a dark color, the text is white. If you select a light color, the text is black.

To set the color for buttons, tabs, and the title bar:

Go to the Player & Branding tab. Open **Advanced Branding** and set the Highlight Color.

This example shows a blue title bar and buttons on the registration page and blue tabs on the event window.
